

Key Realty Mentoring Program

The Key Realty Mentoring Program is designed to assist agents as they enter the business and provide veteran agents with an opportunity to share their wisdom and experience to a new generation of agents. Mentoring programs are a proven way to increase agent success.

Mentorship provides a quicker pathway to closed transactions and therefore increased income. Key Mentors provide support, knowledge and accountability to their counterparts and can help empower agents towards a rewarding career at Key.

To ensure optimal success for the mentee, our mentors are required to participate in and complete a dedicated training program and meet prerequisites including a minimum number of transactions, among other qualifications.
